Flags and Driving Standards

1. **BLUE FLAG** – If you are shown a blue flag, you must move to the right hand side of the track and let the driver behind through. Do not slam on brakes at this time, but slow down just enough to let kart behind overtake safely. The kart overtaking must do so in a safe manner with no direct contact. The blue flag will be shown when necessary during qualifying and will be shown in a race if you are in the process of being lapped, or dramatically slowing up the rest of the field.
2. **RED FLAG** - will be given when our official deems you have driven in an unsafe manner as follows
 - a. Directly hitting another kart or directly hitting a barrier.
 - b. If you cause another kart to spin, lose control, or disadvantage another driver.
 - c. Ignoring the blue flag.
 - d. Speeding through pit lane.
3. The **first** red flag will be a warning, the **second** red flag will be a drive through penalty, the **third** red flag will be a disqualification of that race and must return to pits.
4. Flashing yellow light situation means that all karts will be slowed and there is to be no over taking whatsoever. If you over take during this time you will be called into pit lane for a 10 second stop go.
5. A red light means that the session has ended, hold position and return to pits at a very slow speed.
